Response body for Add Employee

The image is a screenshot of a web browser window displaying the Swagger UI for a REST API. The browser's address bar shows the URL: `localhost:8040/admin/employees/swagger-ui/index.html?continue#/employee-rest-controller/addEmployee`. The Swagger UI interface is light green and includes a top navigation bar with a search input and a list of API endpoints. The main content area is titled "Responses" and shows the details for the `POST /admin/employees/AddEmployee` endpoint. The response code is `200`, and the response body is `Employee Added`. The response headers are listed below the body. The browser's taskbar at the bottom shows various application icons and the system clock indicating 12:02 AM on 3/7/2024.

Update Existing Employee

The image is a screenshot of a web browser displaying the Swagger UI for an API. The browser's address bar shows the URL 'localhost:8040/admin/employees/swagger-ui/index.html?continue#/'. The Swagger UI interface has a title 'employee-rest-controller'. Below the title, there's a section for the endpoint 'PUT /UpdateEmployee'. The 'Parameters' section is expanded, showing a list of query parameters. Each parameter has a name, a type, a requirement status, and a value. The parameters are: 'id' (integer, required, value 2), 'firstname' (string, required, value 'Nivedha'), 'lastname' (string, required, value 'Mohan'), 'email' (string, required, value 'Nivedha@gamil'), and 'auth' (object, required, value '{}'). A blue 'Execute' button is located at the bottom of the parameters section. A 'Cancel' button is also visible in the top right of the parameters section. The Windows taskbar at the bottom of the screen shows the date as 3/7/2024 and the time as 12:03 AM.
